OPEN
HOUSE

AT

LINCOLN
HIGH SCHOOL

Manitowoc, Wisconsin

Welcome to Lincoln . . .

The student body and faculty of Lincoln High School wishes to extend to you, the citizens of Manitowoc, a hearty welcome to this Open House, and our sincere appreciation and thanks for the excellent facilities which you have provided as represented by the new additions to and the remodeling of sections of our building. As a result of this extensive construction, 435 pupil stations have been added to the capacity of Lincoln High School.

The music rooms enable Lincoln High School to offer a music program second to none. The modernizing of the auditorium and stage makes it possible to provide dramatic training of an unexcelled nature. The Library and Art addition, needed so badly for so long, remedies a situation which the North Central Association criticized. The new cafeteria gives us modern facilities and enables us to care properly for the students who eat here. The new offices, guidance rooms, and business rooms provide adequate space for these purposes. With these added facilities, Lincoln High School is now equipped to furnish the youth of our city the kind of educational training that you want them to have.

We hope that you will like what you see here today, enough to want to come again. Remember, you are always welcome.

Rex K. John
Principal
